SKILLS

- **Programming:** Python (Advanced), C++ (Basic).
- **AI & ML:** TensorFlow, PyTorch, LLM, RAG, Agentic AI.
- **Tools:** Git, Hugging Face, Docker.
- **Audio & DSP:** Librosa, Pure Data, Ableton (Production).
- **Languages:** Spanish (Native), English (TOEFL B2).

EDUCATION

M.Sc. in Sound and Music Computing (GPA: 8.7/10)

Universitat Pompeu Fabra | 2020

Focus: Audio Signal Processing and Deep Learning.

B.S. in Electronics Engineering (GPA: 4.3/5.0)

Universidad de Antioquia | 2015

Focus: Mathematics, Circuit Theory, Programming, and DSP.

A.S. in Music Technology (GPA: 4.7/5.0)

Institución Universitaria ITM | 2010

Focus: Composition, Recording, and Live Sound.

(Additional training available on web portfolio)

PROFILE

Transitioning from music technology lecturer to **AI/ML Engineer**. I bring academic rigor and hands-on experience in **Python**, **Deep Learning**, and **DSP**. I am a **lifelong learner** seeking a team to deliver technical value and master industry standards.

AI/ML PROJECTS

- **A lo Paisa | System Deployment**
Voice-to-Voice Pipeline for Antioquian Spanish.
- **FF-Music-LSTM | Algorithmic Composition**
Fusing Final Fantasy music with an LSTM Network.
- **Neural Style Transfer | Computer Vision**
Image stylization using VGG19 CNN in TensorFlow.

(All available on web portfolio)

WORK EXPERIENCE

University Lecturer

Institución Universitaria ITM | 2021 – Present

Courses: Recording Techniques, Audio Processing, Psychoacoustics, and Electroacoustics.

Singing Tech Intern

Voctro Labs (Barcelona) | 2019 – 2020

Research and development in singing voice processing: state-of-the-art review, study and integration of Deep Learning-based singing enhancement systems, database creation, and subjective evaluation.

Teaching Assistant

Universidad de Antioquia | 2014 – 2015

Course: Electric Circuits.
